Word Bank:

LARVA EGG ADULT PUPA

Fold

The part of the butterfly life cycle that we tend to see the most. During this stage butterflies have colorful wings for flying.

A

The very first part of the butterfly life cycle. Butterflies will hatch during this life cycle stage.

B

The worm-like stage of the butterfly's life cycle – usually seen eating leaves.

C

This part of the life cycle comes after the caterpillar hangs upside down. The butterfly grows wings during this stage.

Banco de palabras:

LARVA HUEVO ADULTO PUPA

Dobla

La parte del ciclo de vida de la mariposa que tendemos a ver. En esta etapa, las mariposas tienen alas para volar.

A

La primera parte del ciclo de vida. Las mariposas eclosionan durante esta etapa del ciclo de vida.

B

La etapa parecida a un gusano del ciclo de vida de la mariposa: generalmente se ve comiendo hojas.

C

Esta parte del ciclo de vida se produce después de que la oruga cuelga boca abajo. La mariposa crece alas durante esta etapa.

D
